

"I went to a college before this one and dropped out - my mates passed but they never found a job. With this college they actually go out of their way to find you a job. My teacher was looking for jobs for me, emailing me jobs, opportunities things like that. I've taken one and now I've got a really good job at a really good gym. So I thank everyone for that. I love this college really. It's a shame to leave."

Former Student

"I was someone who in my secondary school was quite quiet, so coming to a small college I would be able to get the help that I needed."

Partners

We are delighted to be partnering with some outstanding organisations who have already impacted our students through our careers and enterprise events:

KEY STAGE 4 ALTERNATIVE PROVISION SOUTHQUAY COLLEGE

Learn, grow, and realise your full potential!

Our vision is to see young people progress into sustained education and employment. We offer programmes designed to support your professional and personal development.

Students follow a vocational course each academic year that they are with us. High quality equipment and vocational teaching spaces provide students with opportunities to develop practical skills. Wherever possible, opportunities to interact with real-life scenarios and settings are offered.

Hair & Beauty

An introduction to the industry, this course covers, skin and hand care, nail art, make-up and an introduction to hair. The course also introduces essential topics such as professionalism and health and safety.

Sport & Fitness

This course offers a theoretical and practical overview of the sport and active leisure industry. Units cover a broad range of topics, such as planning a fitness programme, taking part in sport and understanding how the body works.

Creative Arts

Try a range of techniques such as drawing, painting, photography and sculpture. There may also be some opportunities to explore other creative processes related to music, design and media.

Construction

Gain basic knowledge and skills to prepare for further training and employment in the construction industry.

"My day volunteering at the college was an enjoyable and valuable experience. There were so many bright young students and what they achieved in the three hours through the Footwear challenge was astonishing. I'm looking forward to see how their skills progress over the coming months and I wish them well in the preparations for the Company programme."

Paula Vennells Group Chief Executive, Post Office

COMING IN 2020! Hospitality & Catering

Careers Education, Information, Advice & Guidance (CEIAG)

In line with the Government's careers strategy, all students have access to a wide range of group and individual activities aimed at preparing them for adult life, which in most cases includes further training and employment.

We aim to create a 'pathway from employability to employable', providing a range of learning experiences that place development of the whole person in the context of the wider community:

- Engaging with Citizenship, Enterprise, PSHE, SMSC, and British Values
- Meeting employers and employees
- Visiting work-place / real-life settings

We also want these experiences to be fun and enriching, so that students feel inspired and encouraged to pursue their own ambitions.

"Once again I have come to share something with the students and left inspired by their drive, vision, tenacity and passion. The panel spoke from the heart and shared truths about the world of enterprise that you will seldom hear in a classroom."

Alain 'Fusion' Clapham Founder, Industry In The Streets

Core Offer:

- GCSE English and Maths
- Functional Skills English and Maths

Pathways can be tailored according to students' needs and aspirations:

Additional Flexible Core Offer:

- Art
- Science
- IT
- Humanities
- Business Studies

Pastoral Care

Each student meets with a Student Journey Lead for 1:1 support with career planning, personal development and target setting. As an attachment and trauma aware provision we want each student to build positive relationships with staff and to feel safe and able to focus on their own learning and development.
